**(Why Ignorance Rises With the Executive Level)**

Here is a simple explanation that is also a mathematical proof.

Variables are **Knowledge, Power and Money**. First, the givens:

**Knowledge is Power.**  
**Time is Money.**  
And, as every engineer knows: **Power = Work/Time**

By simple substitution we get:

**Knowledge = Work/Money**  
Solving for **Money**, we get:

**Money = Work/Knowledge**

Thus, the science of mathematics proves that **Money** approaches infinity as **Knowledge** approaches zero, regardless of the value of **Work**.  
This effectively proves that the less you know, the more you make.
